***Some closing comments about bloodhounds...*** Yes, we LOVE them! They are amazing and loveable dogs! They bring so much joy to our lives! But they are also big dogs, that do drool (mainly when they eat, drink or exercise). They are smart and therefore they can be stubborn. They definitely need good training & good leadership. They are silly, but they are also sensitive to harsh corrections.

***Some closing comments about us...***

- We LOVE each of our bloodhounds as pets and family members first. Our eldest bloodhounds Hunter is just a pet (a tractor buddy & fishing companion), a wise old man and the best tracker! Our youngest bloodhound, Sebastian is our up & coming show dog (who got an invitation to Eukanuba at just 1 year of age). Our Sassy girl, is our heart dog; but she is also an American & International Champion, with a Rally & a Trailing Title, a Canine Good Citizen, approved for Therapy, and working on her Obedience Title.
- *We are NOT a puppy mill (we do not breed dogs as a business nor do we breed dog for any other reason than for breeding a quality puppy for ourselves and for improving our bloodhound bloodlines).*
- Our goal for each of our puppies would be first to be loved totally by their forever family! For the outstanding puppies to be shown (at least to their championship). For the most intelligent dogs with the best noses to go to a working home (police or search/rescue). And for all our puppy buyers to become friends and share the silly antics of their puppies and send photos as if we were the grandparents!
- *We will NOT allow one of our puppies to fall into a puppy mill and to be bred and bred and bred, only for money, and without love, affection and a good quality of life.*
